PROFILE SUMMARY

Data Science student with hands-on experience in building dashboards and performing data analysis using Power BI, Microsoft Excel, SQL, and DAX. Worked on projects including sales analysis, content viewership trends, IMDb movie ratings analysis, and performance dashboards, translating raw data into actionable business insights. Strong foundation in data visualization, statistical analysis, and analytical problem-solving. Seeking a Junior Data Analyst role to apply data science and analytical skills in a real-world environment.

EDUCATION

Bachelor of Computer Applications (BCA)

Chaudhary Charan Singh University (CCSU), Meerut
2021 – 2024

SKILLS

Data Analysis & BI Tools: Power BI, Microsoft Excel (Advanced), DAX, Data Visualization, Dashboard Design

Programming & Database: SQL, MySQL, Python (Basics)

Data Concepts: Data Cleaning, Data Modeling, Aggregate Functions, Statistical Analysis, Data Storytelling

Tools: Excel, Power BI, MySQL, GitHub

Other: Document Verification, Attention to Detail, Analytical Problem-Solving

WORK EXPERIENCE

Aerial Telecom Solutions — Vi (Vodafone Idea) Project

SIM Verification Executive

February 2025 – February 2026

- Verified customer documents before SIM activation, ensuring compliance with telecom verification standards
- Tested and activated SIM cards after successful document validation
- Identified discrepancies in submitted documents to prevent fraudulent SIM activations

MAS CallNet

Document Verification Executive

June 2024 – November 2024

- Verified worldwide customer documents to identify fake or fraudulent submissions
- Cross-checked document authenticity against company verification guidelines
- Maintained accuracy and compliance while processing high volumes of documents daily

PROJECTS

IMDb Top 1000 Movies Analysis | SQL, MySQL

- Analyzed the IMDb Top 1000 Movies dataset using SQL to uncover insights on ratings, genres, directors, audience preferences, and decade-wise trends
- Performed Top Rated Movies, Most Voted Movies, Genre-wise Distribution, Director Performance, and Decade-wise Trends analysis
- Applied Aggregate Functions, GROUP BY, and ORDER BY for data analysis; project repository and documentation available on GitHub

Disney Entertainment Sales Dashboard | Microsoft Excel

- Designed and developed a comprehensive Entertainment Sales Dashboard for The Walt Disney Company using Microsoft Excel, without any BI tools
- Analyzed \$91.59B total revenue across Movies, Streaming, Theme Parks & Merchandise segments
- Built KPI cards, donut charts, line graphs, and a world map with a dark-themed custom UI entirely in Excel
- Note: Data is fictional and used for learning purposes only

Netflix Content & Viewership Analysis | Power BI, DAX

- Designed and developed an end-to-end interactive Power BI dashboard to analyze Netflix's global content catalog and identify content strategy patterns
- Built a multi-page report with cross-filtering and drill-through functionality, KPI cards for total titles, average ratings, and YoY content growth
- Created genre and region-wise performance breakdowns, content type distribution analysis, and a country-wise contribution heatmap
- Key takeaway: International and original content showed the highest growth, reflecting Netflix's shift toward global-first programming
